Re: Providence Water Supply Board Cost of Service Study - Procedural Schedule

Thank you to those who participated in today's procedural conference. Based on the unanimous feedback, we will review the Cost of Service Study separately from the second step of the multi-year rate plan. The second step is designed to become effective on July 1, 2021.

We discussed a six-month review period for the COSS. This would result in a decision in October 2021.
